

PEDIATRICIAN – Department of Pediatrics

The Department of Pediatrics, at Windsor Regional Hospital, is inviting applications for a full-time Pediatrician to join its General Pediatric program and a dedicated multidisciplinary team of subspecialists, nurses, and allied health professionals. Compensation for this position will be primarily composed of OHIP fee-for-service and Hospital on-call coverage stipend. The anticipated start date for this position is to be negotiated.

The Department of Pediatrics at WRH houses both a Clinical Teaching Unit (CTU), which provides a comprehensive in-patient service to a population of about 400,000 in Windsor and Essex County of South Western Ontario, as well as a range of ambulatory clinics. The 16-bedded CTU provides acute care for children with a wide variety of general pediatric conditions, including admissions locally from the Emergency Department, transfers from other hospitals within the region, as well as from the 22-bed Level 2C Neonatal Intensive Care Unit. The ambulatory clinics, consisting of both general pediatric and subspecialty services, see around 10,000 clinic visits in a year. However, children needing pediatric intensive care and general surgery services are referred to regional tertiary children's hospitals in London or Detroit. In recognition of the growing needs of the region, the Pediatric Program is part of the plans for a major reform of the Windsor-Essex Hospitals System, which includes construction of a state-of-the-art acute care hospital. WRH is actively planning to break ground on the new acute care hospital in 2026. To learn more, go to <http://www.wrhone.ca/windsorhospitals>

Windsor is home to one of the two campuses of the MD program; and, one of the two clinical teaching units (CTU) of the Pediatric Residency program of Schulich Medicine at Western University. The members of the General Pediatric program also work closely with members of the NICU program, Family medicine, Emergency, Obstetrics & Gynecology in clinical, teaching, and quality improvement activities.

The successful candidate will have experience in the family-integrated care of acutely ill children and will be expected to contribute to the CTU on-call service, as well as ambulatory clinics. They will help foster an environment that supports patient safety, quality improvement research, and innovation. To support our educational mission, the successful candidate will actively contribute to educational, and scholarly activities while serving as a role model for our undergraduate medical students and pediatric residents. They will be eligible to apply for a part-time appointment at Schulich Medicine, Western University and also cross-appointment at the Faculty of Science, University of Windsor.

Qualifications

- Applicants should be certified (or eligible for certification) by the Royal College of Physicians and Surgeons of Canada in Pediatrics or equivalent and must be licensed (or eligible for licensure) in the Province of Ontario. Preference may be given to candidates with additional training and/or qualifications in the areas of complex care, patient safety, and/or medical education.
- English language proficiency is **required**.

About Windsor Regional Hospital

Windsor Regional Hospital offers the opportunity for a fantastic career in an award winning health care facility. WRH is a 600 bed multi-site health service organization providing Acute Medical and Surgical Services including Renal, Trauma, Emergency, Family Birthing Centre, Neonatal Intensive Care, Paediatric Services, Critical Care (ICU/CCU), Regional Cancer Services (Inpatient Oncology, Windsor Regional Cancer Centre, Breast Health Centre), Neurosciences and Mental Health Services to 400,000 people in Windsor and Essex County.

About Windsor and Essex County

The Windsor-Essex area is ecologically rich with extensive parkland along with a southwest location that extends warm weather activities such as golfing, gardening, and water sports. Windsor offers the unique opportunities of a larger metropolitan area and the benefits of a smaller community. Living directly across the border from Detroit, Michigan places you on a cosmopolitan stage where arts, culture, big league sports, and entertainment are just moments away. Best of all, you can enjoy access to all of these big-city advantages while living in the relative tranquility (and low costs) of a much smaller, friendlier community.

Interested candidates should submit their application, including Curriculum Vitae, Letter of Interest/Statement of Academic Qualifications, and names, and contact information, of three academic references, to:

Dr. Sajit Augustine, Chief of Pediatrics & Medical Director of Neonatology
C/o Chelsey Thornton, Recruitment Administrator – Medical Affairs
careers@wrhone.ca

Note: Applications will be accepted until the position is filled, and only those selected for an interview will be contacted.
